

ADVANTAGES TO THE PEOPLE

OF

Cookeville, Putnam County and All Surrounding Country

This is an Extraordinary Effort on our Part to Make the
Year 1914 A Record Breaker for Increased Business

We know from all our years of experience that **QUALITY** and the **PRICE** are the things that bring trade; and we believe that you will find both of these important factors in every line of our business.

Is it not reasonable that you can buy goods cheaper from those who buy in large quantities, and buy almost everything direct from the manufacturers and in **CARLOAD LOTS**, than you can from those who buy in smaller quantities.

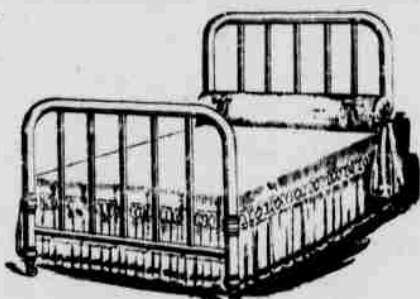

You can find almost everything for the **HOME** and the **FARM** in our stores and this not only saves you time and trouble, but also saves you money
